DETAILED ACTION

This action is in response to the incorrect status identifiers presented in the amendment received on 28 June 2004. The appropriate manner of making an amendment to the claims is listed below. In addition, status identifiers should not be doubled and only the identifiers listed are valid.

MPEP 714 [R-2] Amendments, Applicant's Action

*** 37 CFR 1.121. Manner of making amendments in application.

(c) **Claims.** Amendments to a claim must be made by rewriting the entire claim with all changes (e.g., additions and deletions) as indicated in this subsection, except when the claim is being canceled. Each amendment document that includes a change to an existing claim, cancellation of an existing claim or addition of a new claim, must include a complete listing of all claims ever presented, including the text of all pending and withdrawn claims, in the application. The claim listing, including the text of the claims, in the amendment document will serve to replace all prior versions of the claims, in the application. In the claim listing, the status of every claim must be indicated after its claim number by using one of the following identifiers in a parenthetical expression: **(Original)**, **(Currently amended)**, **(Canceled)**, **(Withdrawn)**, **(Previously presented)**, **(New)**, and **(Not Entered)**.

(1) **Claim listing.** All of the claims presented in a claim listing shall be presented in ascending numerical order. Consecutive claims having the same status of "canceled" or "not entered" may be aggregated into one statement (e.g., Claims 1-5 (canceled)). The claim listing

Art Unit: 2643

shall commence on a separate sheet of the amendment document and the sheet(s) that contain the text of any part of the claims shall not contain any other part of the amendment.
